ITALIANA DI
ENDOSCOPIA
TORACICA

PISA2019

XX ITALIAN MEETING

of the Italian Thoracic Endoscopy Society (SIET)

XIII WORLD SYMPOSIUM INTERNATIONAL
SOCIETY OF SYMPATHETIC SURGERY (ISSS)

10 11 12
OCTOBER

President: Franca Melfi

Organising secretariat:
ZEROSEICONGRESSI srl
Via Benaco 15 - 00199 Roma
tel. +39068416681
info@zeroseicongressi.it
www.zeroseicongressi.it

Meeting Venue :
Chamber of Commerce of Pisa

10

OCTOBER

POSTGRADUATE EDUCATION

The participants will learn how to manage patients with mediastinal tracheal metastatic diseases, the indication for surgery and endoscopic procedures through the illustration of special clinical cases presented by a panel of experts.

XII WORLD SYMPOSIUM INTERNATIONAL SOCIETY

The SIET will host the "ISSS World Competition" which will be focusing on the different surgical techniques, complications and particular aspects of Sympathectomy.

TOPICS:

- Disease of the mediastinum
- Laryngeal-tracheal stenosis
- Metastatic disease

11

OCTOBER

TECHNO-INNOVATION IN LUNG CANCER AND MEDIASTINUM MASS TREATMENT

The scientific sessions will include "Live Surgery", theoretical / practical aspects of the treatment of pulmonary and mediastinal pathologies. Experts will provide "tips and tricks" on the application of new technologies.

TOPICS:

- Robotic
- VATS (uniportal, multiportal, subxiphoid)

INTERVENTIONAL ENDOSCOPY

The session will provide an overview on the challenging problems in the central air-ways especially in the pathology and management of the laryngo-tracheal border

TOPICS:

- Central airways diseases
- Tracheobronchial obstruction management
- Stent
- LVRS

FOCUS: TUMORE DEL POLMONE NELLA DONNA

In collaboration with the association AIDA (Italian Association of Women against Lung Cancer) will be illustrated and discussed the most recent studies on lung cancer in women with particular reference to the molecular biology of NSCLC.

12

OCTOBER

DIAGNOSTIC ENDOSCOPY

The sessions will focus on the new frontiers in endoscopic diagnostics through live procedures and reports from the experts of the field

TOPICS:

- EBUS
- Lung cryobiopsy
- Endobronchial navigation
