SUBMISSION DEADLINE: 23 MARCH 2015

Schweizerische Pankreasstiftung
Fondation Pancréas Suisse
Fondazione Pancreas Svizzera
Swiss Pancreas Foundation

WELCOME

Dear colleagues,

On behalf of the Swiss Pancreas Foundation (www.pankreasstiftung.ch) and the congress organisers we would like to invite you to our new biannual World Pancreas Forum, which brings together eminent specialists and leaders in the treatment of pancreatic pathologies. The World Pancreas Forum is scheduled to take place for the first time on 18–19 June 2015 in Bern, Switzerland.

The main topic of the first World Pancreas Forum is the surgical treatment of pancreatic cancer, with a focus on specialised treatment of different entities and the corresponding technical aspects, standards, limitations and complications in surgery as well as innovations and evidence-based medicine. State-of-the-art lectures round off the sessions. Other elementary components include live surgeries, an oncology symposium and a distinguished technical exhibition presenting the latest innovations.

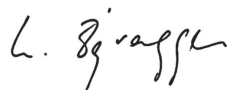

Our aim is to organise an outstanding and exciting clinical and scientific programme with leaders and delegates from all over the world in order to share the very latest findings and knowledge in pancreatic tumour surgery.

We look forward to welcoming you in Bern!

Sincerely yours,

Markus W. Büchler
