

Warm greetings! We are IRCAD-Taiwan, a minimally invasive surgery training center located in Lugang!

We would like to cordially invite you to our **【B.E.S.T. INNOVATION WORKSHOP】** !

IRCAD-Taiwan's B.E.S.T. INNOVATION WORKSHOP has been held annually since 2017. We had over hundreds of attendees, including participants and faculties from over 20 different countries, and brings together elites from all over the fields of Biodesign, including the fields of medical, engineering, business, and entrepreneurs, to showcase their enthusiasm and passion in innovation for better medical quality.

IT IS NOT JUST AN EDUCATIONAL METHOD, BUT ALSO, AN EXCEPTIONAL PROGRAM OF ENTREPRENEURIAL SPRITI!

COURSE OVERVIEW

B.E.S.T. INNOVATION WORKSHOP is a fast-paced, project-based course for graduate and post-graduate students with a passion for entrepreneurship and a commitment to improving healthcare for patients around the world through technology innovation.

Over 5 days, multidisciplinary teams of elites. At the end of the course, motivated teams have the opportunity to receive funding to continue developing their projects. Students receive coaching and guidance from our core faculty and project coaches.
