

[KSERS 2023] The KSERS 52nd Annual Congress & 13th International Symposium (April 27-29, 2023)

We are pleased to invite you to participate in the 52nd Congress of KSERS & 13th International Symposium (KSERS 2023) from April 27-29, 2023 in Seoul, Korea.

Although the KSERS annual congress has been held virtually for the past three years, this year we are planning to hold KSERS 2023 as an in-person congress so that all surgeons from all over the world will be able to unite and collaborate again after the long absence due to the pandemic.

KSERS 2023 will feature cutting-edge scientific programs represented by New technology/ New devices and AI/ Robot SP as keywords. Furthermore, special joint symposia with international societies will be planned as in other years to catch up on the latest trends, with a wide range of social activities specially planned for us to network and celebrate our achievements.

Please refer to the overview below and we look forward to your interest and participation.
