## **November 22nd - Reimagining How We Heal: Improving Oncological Outcomes with Precise Surgery**

In the ever-evolving landscape of medical science, precision surgery has emerged as a game-changer, offering new hope for patients. Japan, with its pioneering advances in medical technology and expertise, is at the forefront of this transformative approach.

Precision surgery is a paradigm shift in the way we approach cancer treatment. By employing state-of-the-art techniques and cutting-edge technology, surgeons can now target tumors with unparalleled accuracy. As we continue to reimagine how we heal, the integration of precise surgery techniques offers newfound optimism for patients.

On **November 22nd at 10 pm (Tokyo Time)**, [AIS Channel](https://aischannel.com) will be broadcasting live this high-level online congress hosted by the leading experts in their fields.

**Join us and participate in this cutting-edge live event which will be followed all over the world!**

Don't miss it on [AIS Channel](https://aischannel.com)!!!

## **PROGRAM**

- 1. Welcome & Introduction** - *Dr. Shigeki Yamaguchi (Japan)*
- 2. Precise Technique for lap rectal surgery** - *Dr. Junichiro Kawamura (Japan)*
- 3. Targeted lymphadenectomy during complete mesocolic excision for colon cancer** - *Dr. Lawrence Lee (Canada)*
- 4. Panel Discussion - How does precise surgery improve patient outcomes?** - *All faculty moderated by Dr. Shigeki Yamaguchi (Japan)*
- 5. Closing Remarks** - *Prof. Shigeki Yamaguchi (Japan)*

## **FACULTY (in alphabetical order)**

**Dr. Junichiro Kawamura** - *Professor, Department of Surgery, Kindai University, Japan*

**Dr. Lawrence Lee** - *MD, PhD, Associate Professor of Surgery, Department of Surgery, McGill University Health Centre, Canada*

**Dr. Shigeki Yamaguchi** - *Professor and Chief of Division of Colorectal Surgery, Department of Surgery at Tokyo Women's Medical University, Japan*
